

Amendments to the Specification:

Please amend the specification as follows:

Please delete the paragraph at page 1, lines 10-17, and replace it with the following rewritten paragraph:

The new *Campanula*, 'PKMh03', is a product of a planned mutant selection and monitoring program conducted by the Inventor, Gert K. Jensen, in Søhus, Denmark. The new *Campanula* originated from a spontaneous, sport mutation found in 2001 by the Inventor in a production batch of *Campanula X haylodgensis* 'Marion Fischer' (unpatented). The Inventor selected the new *Campanula* cultivar ~~from the progeny of the above cross in 2001~~ on the basis of its compact and freely flowering habit. Plants of the new *Campanula* are more upright, compact, and more freely flowering than plants of 'Marion Fischer'.
